Swiss Semiconductor Summit 2027

1–2 April 2027 | Bad Ragaz, Switzerland

powered by

SWISSMEM

Sponsoring Invitation

SWISSMEM

Preliminary program

Day 1 – Factory tours

- Factory tour to two semiconductor industry companies: *Evatec AG and Espros Photonics AG*
- Networking Dinner, with Table sponsoring option (Platinum sponsoring)

Day 2 – Conference Day

- Keynote by *(tba)*
  - Talks by invited national and international experts
  - Panel discussion

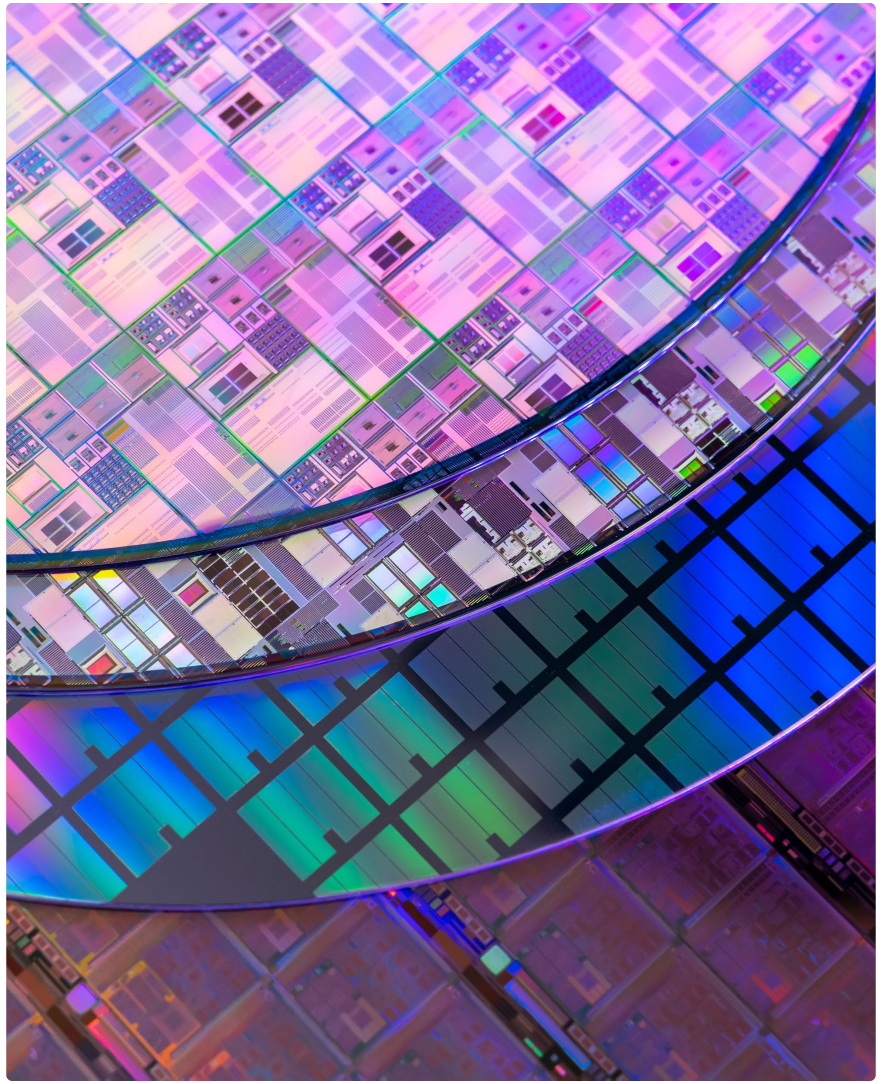
- **Parallel Sessions**
  - Session 1: Semiconductor Start-ups and early companies
  - Session 2: Research & innovation – baseline for success for Switzerland in the semiconductor industry
  - Session 3: The Swiss Chip Alliance – Access to knowhow, tools and infrastructure
  - Session 4: Latest trends, technologies and products from Switzerland
- **Plenary session**

What to expect

- **Factory Tours**: Get a close insight into the activities, products and positioning of the well-known semiconductor companies Evatec AG and Espros Photonics AG!
- **Inspiring Keynotes**: Gain insights from leading industries and international experts on challenges, trends and opportunities for the Swiss semiconductor industry.
- **Industry Highlights**: Hear from prominent Swiss-based semiconductor companies and manufacturers and discover their contribution to innovation.
- **Policy Perspectives**: Engage with Swiss and European policy makers from government, research and industry as they discuss needs and challenges affecting the semiconductor industry.
- **Collaborative Networking**: Connect with fellow innovators, researchers and decision makers during the networking dinner, lunch and aperitif and discuss ideas, perspectives and foster new partnerships!

Why partner with us?

A stronger platform for visibility, access and thought leadership across Switzerland‘s semiconductor ecosystem.



The summit offers sponsors more than a logo placement:
It provides direct positioning in a growing industry platform.

- **Industry Access**
  Reach executives, engineers, innovators and start-ups across the semiconductor value chain.
- **Brand Visibility**
  Increase visibility before and during the summit with an expected audience of around 300 participants.
- **Thought Leadership**
  Contribute expertise to discussions shaping the future of the Swiss semiconductor ecosystem.
- **High-Value Networking**
  Build relationships during factory visits, sessions, lunch, aperitif and networking dinner.

Bronze Partner

- Official Bronze Partner recognition
- 1 complimentary ticket
- Logo on event website
- Logo in conference brochure
- Inclusion in one collective LinkedIn sponsor announcement

CHF 1’500 + VAT

Silver Partner

- Official Silver Partner recognition
- 2 complimentary tickets
- Logo on event website
- Logo in conference brochure
- 1 roll-up in designated networking area
- Inclusion in one collective LinkedIn sponsor announcement
- Opportunity to provide one approved branded giveaway

CHF 3’000 + VAT

Gold Partner

- Official Gold Partner recognition
- 3 complimentary tickets
- Logo on event website
- Logo in conference brochure
- Up to 2 roll-ups
- Tabel Fair: Flyer / printed materials
- Logo / branded slide on conference screens during selected breaks
- 1 dedicated LinkedIn sponsor post
- Opportunity to provide one approved branded giveaway

CHF 6'000 + VAT

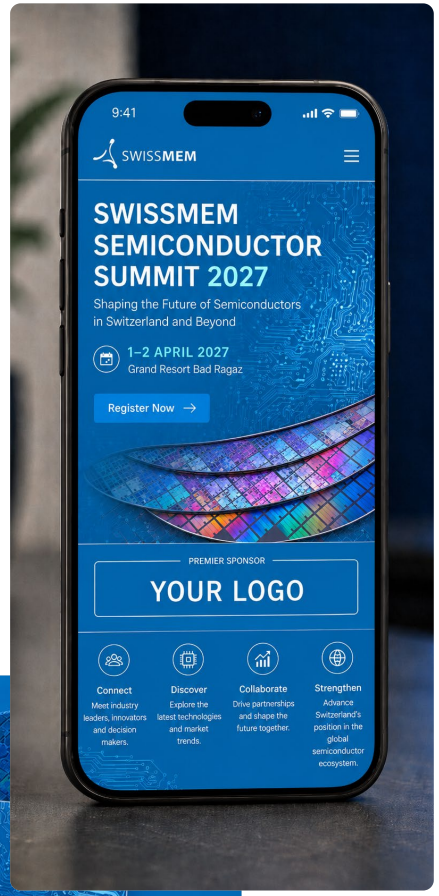
Platinum Partner

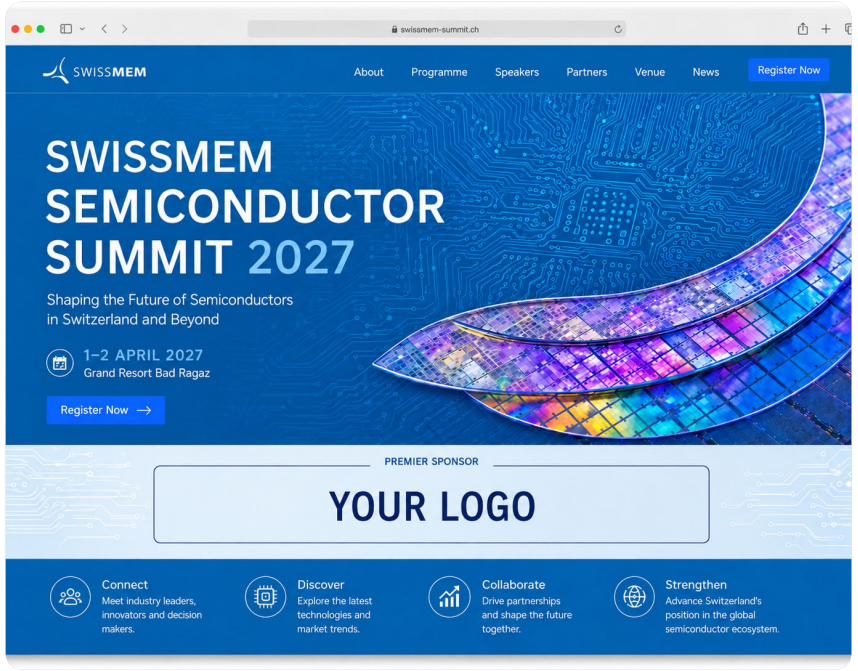
Available to one sponsor only

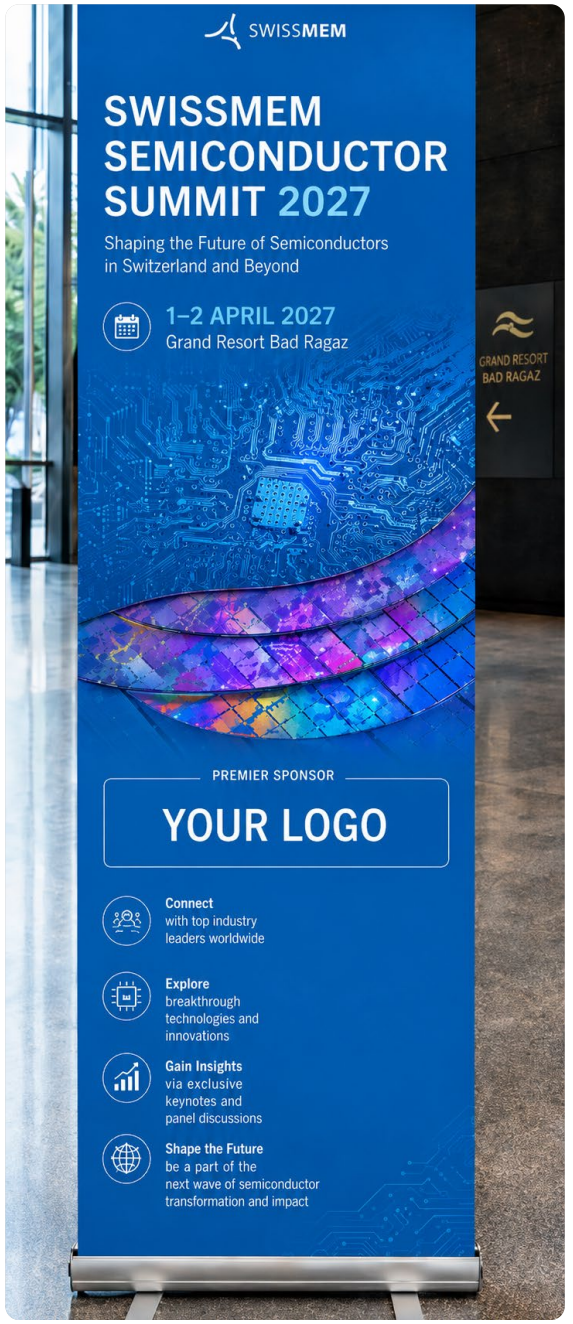
CHF 13’000 + VAT

- Exclusive Platinum Partner status
- Premium company presence
- 6 complimentary tickets
- Highest-level logo placement
- Logo in conference brochure
- Up to 2 roll-ups
- Tabel Fair: Flyer / printed materials
- Prominent conference screen branding (during breaks)
- 2 dedicated LinkedIn Lead Partner mentions
- Priority speaker nomination opportunity, subject to programme approval
- Exclusive Networking Dinner branding
- Opportunity for a short welcome speech at the Networking Dinner
- Logo on official lanyards
- Opportunity to provide two approved branded giveaways

Mock-ups*







*The mock-ups shown are for illustrative purposes only; final designs and executions may differ.

Conference Committee

- Alain-Serge Porret - CSEM
- Ekinci Yasin - PSI
- Hans Priem & Cees Maris - VDL Enabling Technologies Group
- Oliver Kunz - Carl Zeiss SMT
- Beat De Coi – Espros Photonics
- Cemal Aydogan - Hitachi Energy
- Adriaan Spierings – Swissmem

Conference Organiser:

Swissmem | Semiconductor

The Swissmem SEMI Industry Sector

Are you interested into becoming a member of Swissmem and ist SEMI industry sector?

The Swissmem semiconductor industry sector (SEMI) is the central contact point for the Swiss semiconductor ecosystem uniting today almost 50 partners.

Our mission is to internationally remain competitive by informing the public and politics on the significance and value of the SEMI industry for the Swiss economy, ensuring fair and open trade and enable industry-access to talents and skilled workers. Hence, we maintain a level playing field in a competitive global market.

What we want to achieve

We want to ensure that the Swiss semiconductor industry can research, develop and commercialize the outperforming technologies that are essential to follow and realize latest trends such as in mobility, energy, computer technologies and so on. Our goal is to provide a networking platform that supports the exchange of ideas with industry peers and jointly encourage policies and regulations that strengthen the semiconductor industry in Switzerland. By this we want to enable the long-term supply for Swiss industry needing semiconductor products and to remain competitive in leading future technologies..

What we do

The SEMI bundles and coordinates the member's common interests and represents them towards stakeholders in industry, science and politics. Hence, we strengthen the expansion of our members' relationship and information network, support R&D and innovation initiatives on the national and international level and engage for industry –friendly framework conditions.
